# First Time

## Fabolous

First time you kissed my lips
The first time your fingertips
Touchin' me, I couldn't resist
The first, the first, firstThe first time you kissed my lips
The first time your fingertips
Was touchin' me, I couldn't resist
I knew I was meant for thisThe first time you held me close
The first time I couldn't say no
So lost inside of you
I knew I was meant for youNow my first time checkin you, only took a second to
Start inspectin you, without disrespectin you
Wasn't expectin you to say it was affectin you
What you wearin got me starin like you butt naked, booIt may seem, like I dont even reckon you
But I day dream about kissin on the neck of you
Style is impeccable, smile is incredible
Ain't nothin' like you, and baby, I done met a fewThe way I feel its almost like a crush
My heart beats faster, its almost like a rush
And thats just when you in a, in a room
I could tell when you around by the scent of your perfumeI see why they put the R&B songs together
I feel like Mariah, yeah, 'We Belong Together'
Its my pleasure, I treasure that I met you
Bet you I could get you on the first timeThe first time you kissed my lips
The first time your fingertips
Was touchin' me, I couldn't resist
I knew I was meant for thisThe first time you held me close
The first time I couldn't say no
So lost inside of you
I knew I was meant for youNow, I remember datin, the first time was intimidatin
No rush though, I spend the whole November waitin
Come on, look at the patience that Im demonstratin
After a week or two, I usually start eliminatinBut we got through the convo on the phone
Now we finally chillin in a condo all alone
I tried to be expressive without bein aggressive
Just bein' suggestive, a lil more impressiveAnd Im a good playa, I listen to the coach
She showed me the play book and said this is the approach
If you ever wanna score cuz some players rush they shots
And thats why they neva on the floorAnd thats why we both feel comfortable
Like long time friends, only been a month or two
I got moves and I know when to make em

But I only give em if I know you could take em, uh, ohThe first time you kissed my lips
The first time your fingertips
Was touchin' me, I couldn't resist
I knew I was meant for thisThe first time you held me close
The first time I couldn't say no
So lost inside of you
I knew I was meant for youNow, before the first time we laid down in the bed
You aint know the kinda thing sthat played around in my head
I aint play around when I said you gon' remember this
Might even turn yourself on when you reminisceOur first time, we were like virgins with experience
A lil shy but I urged you to experiment
Things got wetter, oh, I mean better, oh
Im gettin numb, Im about toC-c-come on now, not yet, boo, slow down
We just stepped in the ring, need a few more rounds
Thats the first time it felt like that
Now you know why Fabolous is spelled like that, yeahThe first time you kissed my lips
The first time your fingertips
Was touchin' me, I couldn't resist
I knew I was meant for thisThe first time you held me close
The first time I couldn't say no
So lost inside of you
I knew I was meant for youThe first time you kissed my lips
The first time your fingertips
Was touchin' me, I couldn't resist
I knew I was meant for thisThe first time you held me close
The first time I couldn't say no
So lost inside of you
I knew I was meant for you
