

Lost Within

Voice of Glass

Depression breed like rats
And turn your soul to black
You no longer care that you feel nothing
Bow down
And serve your master
Bow down
Your life is mine
Will you survive the day
Or will you disappear and fade away?
Heard all you had to say
Lost within the gray
Your will has disappeared
Breathe in the souls air
An undead memory
That's slowly fading
Bow down
Your life means nothing
Bow down
You're lost within

Will you survive the day
Or will you disappear and fade away?
Same lies told another way
Lost within the gray
You sacrificed all
That kept you strong
Changed your mind
The minutest things went wrong
Turned away
From what you created
Bowed your head
And serve the ones you hated
I thought, I knew you well
Now only time will tell
Will you survive the day
Or will you disappear and fade away?
Heard all you had to say
Lost within the gray
You're lost

You're lost
