Spin

Darren Hayes

Governments elected nobody votes
Politically correct isn't that a joke?
We censor music then give children guns

On CNN

Still fightin' to death over Jerusalem

Four letter disease still makes us run

Can't comprehend that you can die from loveCan I start things over and change your mind?

Can I sing a melody, press rewind?

Can I move your feet make your heart skip a beat?

Can a simple tune flow through you? When the music feels like this

When you lose control you gotta go with it

Ten feet high

Flyin' above the sky

Your problems don't exist

When music feels like this No money left in Africa

Starvin' to death in Bosnia

We close our eyes and hide a nation cries

And in the west

TV possessed and weight obsessed

The media dissects, infects

We think real life is reality TVCan I have your attention and press rewind

When the D.J. spins, will it change your mind?

Can I move your feet, make your heart skip a beat

Can a piece of me flow through you? When the music feels like this

When you lose control you gotta go with it

Ten feet high

Flyin' above the sky

Your problems don't exist

When music feels like this When the music feels like this

D.J. take control

And grab a hold of me

Spin that wheel

Tell me how to feel

I like the shape I'm in

When music feels like this Bringin' the beat back

Stompin' the floor

Dancin' like a booty never bounced before

Poppin' to the back beat

Up on the one

Smack Jack freakin' now you're overcomeWhen the music feels like this When you lose control you gotta go with it

Ten feet high

Flyin' above the sky

Your problems don't exist

When music feels like this When the music feels like this

D.J. take control

And grab a hold of me

Spin that wheel

And tell me how to feel

I like the shape I'm in

When music feels like this When the music feels like this

When the music feels like this

When the music feels like this
