

Let's Get It

The Lox

Welcome to the world of Trinity

Spin on the cop

Heâ€™s my enemy

I told you I smoke

To get rid of negative energy

Killing you is the remedy

Like living rich

Yeah and on my lap get manicured

Go get it and test the grammar rule

You know I got it ready to sweep

I got goons in my ear

Like I'm ready to eat

Beef with me find a roof

And get ready to leap

We donâ€™t give a fuck about you niggaz

We donâ€™t give a fuck about you bitches

Niggaz know itâ€™s late cause we let it

You can live and die

Whatâ€™s the difference?

All my niggaz hustlinâ€™, yeah

Beat it

Hand on my gun

Smokinâ€™ sour

Playinâ€™ on my Xbox 1

Incarerated faces playinâ€™

Nigga fuck what youâ€™re sayinâ€™

Letâ€™s get it

This is the trio

Now Iâ€™m growing

These bitches wonâ€™t kiss my pio

See the difference is we do it for the hood

You do it for your label

Thatâ€™s why your career is not stable

I make niggaz jump out and get reckless

Stake up niggaz coming home with your necklace

Laugh about it with new things for breakfast

We own it
We want you niggaz to come test us
Black bottles and some college bitches
Jellow shots and a bunch of Instagram pictures
Wavin' a 4 pound
Benjamin is still hotter than what's up right now

We don't give a fuck about you niggaz
We don't give a fuck about you bitches
Niggaz know it's late cause we let it
You can live and die
What's the difference?
All my niggaz hustlin', yeah
Let's get it

You know what it was
Right after I lit the alarm
Head shot instantly, the brain swole up
You gonna see the pictures right after they get developed
First you break everything down
Then you sell up
Can't get out of the pain
You still talking about your means of living
It ain't equivalent
Unless send a nigga a kite if you can't visit him
Drug dealers slash paying taxes
A single parent at home will raise you to hate your father
Personally I'd rather kill you
I hate to rob you
This is just gonna continue
And do it in the tone way
You all wanna see the Lord
Then do what the religion says
As long as I'm concerned
You niggaz are untraced

We don't give a fuck about you niggaz
We don't give a fuck about you bitches
Niggaz know it's late cause we let it
You can live and die
What's the difference?
All my niggaz hustlin', yeah
Let's get it

We don't give a fuck about you niggaz

We don't give a fuck about you bitches
Niggaz know it's late cause we let it
You can live and die
What's the difference?
All my niggaz hustlin', yeah
Let's get it
Let's get it
Let's get it
Let's get it
