

# The Last of Us

## Outtrigger

I cannot find, home 'cause I can't find myself  
No demands, her sympathy was not impaired  
I cannot feel, rolling on to something real  
Looking back, home won't ever be the same I feel your love  
Yes I feel your love Maybe the last of us were never to survive  
Maybe the last of us were never to survive  
Maybe the last of us were never to survive  
Maybe the last of us were never to survive When I speak, I'm afraid not to be heard  
Pushing you, made the situation worse  
I can't indulge, the passing dreams of my own coin  
And so I sleep, sleep 'till death does not mean gone Don't sleep my love  
Don't you sleep my love Maybe the last of us were never to survive  
Maybe the last of us were never to survive  
Maybe the last of us were never to survive  
Maybe the last of us were never to survive It's never been easier to hide  
Nobody believes that I'm alive  
As I'm begging please don't take my life  
Nobody can see me as I die Tell us the story about your life  
Tell us the story about your life  
Tell us the truth reveal the edge  
This story gets better again Maybe the last of us were never to survive  
Maybe the last of us were never to survive  
Maybe the last of us were never to survive  
Maybe the last of us were never to survive Maybe the last of us were never to survive  
Maybe the last of us were never to survive  
Maybe the last of us were never to survive  
Maybe the last of us were never to survive  
Maybe the last of us were never to survive  
Maybe the last of us were never to survive  
(We were never to see the light)  
Maybe the last of us were never to survive  
Maybe the last of us were never to survive It's never been easier to hide  
Nobody believes that I'm alive  
As I'm begging please don't take my life  
Nobody can see me as I die It's never been easier to hide  
Nobody believes that I'm alive  
As I'm begging please don't take my life  
Nobody can see me as I die
