Moment In Time

Atc

a special moment in my life
I can't believe you made it real
a moment in time, baby, is you
you stopped this beating heart of mine
spending hanging on the line
you're just a special moment in time
[you're just a special moment in time]the moment a man walked on the moon
the moment I hear a beat or two
a moment in time ,oh, a moment in time
the seconds that satisfaction brings
the moment that Stevie Wonder sings
a moment in time, oh, a moment in time
a frame of every passing day
a photograph ion every way
a moment in time, baby, is you
my memories stuck on rewind
and still of you inside my mind
you're just a special moment in time
the moment a man walked on the moon

the moment I hear a beat or two
a moment in time, oh, a moment in time
the seconds that satisfaction brings
the moment that Stevie Wonder sings
a moment in time, oh, a moment in time
the moment I looked at you
the moment you said "hello"
the moment a man walked on the moon
the moment I hear a beat or two
the moment a man walked on the moon
the moment I hear a beat or two
the moment a man walked on the moon
the moment I hear a beat or two
a moment in time, oh, a moment in time
the seconds that satisfaction brings
the moment that Stevie Wonder sings
a moment in time, oh, a moment in time
