A String of Losses

In Dynamics

Today, I watched you leave.
So tomorrow please,
take care of me.

The last, foot in my sight.
Pray you reside.
The deepest kind.

I'm gone, but can I carry.
I'm gone, but can I carry on.
I'm gone, but can I carry.
I'm gone, but can I carry on.

You pull afar, so divine!
And I, know there's something between us,
with nothing inside.
Nothing at all.

You pull afar, so divine!
And I, know there's something between us,
with nothing inside.
Nothing at all.

There's no strings attached.
To the months we've scratched.
Into my grasp.

And I will shrug it off.
Only because,
I know you will.

You pull afar, so divine.
And I, know there's something between us,
with nothing inside.
Nothing at all.

You pull afar, so divine.
And I, know there's something between us,
with nothing inside.

Nothing at all.

What did you see?
Was it beautifully coxed?
Was it empty and old?
Was it left to unfold?

Or is it-
What did you feel?
Was it your saving grace?
Was it always too late?
Was it your mistake next to mine?

You pull afar, so divine.
And I, know there's something between us,
with nothing inside.
Nothing at all.

You pull afar, so divine.
And I, know there's something between us,
with nothing inside.
Nothing at all.

You pull afar, so divine.
And I, know there's something between us,
with nothing inside.
Nothing at all.

Oooh, Ooooh~

Nothing inside.
Nothing at all.
