

# Break Out

## Protoculture

Hello, is there anybody out there  
Anybody out there to hear me call  
Now I, I gotta take my chances  
I gotta take chances  
To get outta this place  
Explode into space I feel it coming  
Feel it in my soul, I'm bursting up  
Inside with my freight train heart  
I'm rolling down the track [Refrain:]  
Breakout, keep the fire burning  
Breakout, keep the wheel turning  
Breakout, I gotta have my freedom  
Breakout, I've been waiting  
Breakout, anticipating  
Breakout, I gotta have my freedom Tonight chains are gonna break down  
There'll be a shakedown  
Breaking through the barriers  
When I, when I'm where I wanna be  
No more under lock and key  
There's no going back  
No turning back I feel it coming  
Feel it in my soul, I'm bursting up  
Inside with my freight train heart  
I'm rolling down the track [Refrain] I feel the hunger rising  
I feel it in my bones and in my heart  
And nothing stops me now [Refrain]
