

I Hate Every Bone In Your Body But Mine

Poison

In one ear and out the other
Told myself this girl is trouble, yeah
Everyone that looks at her
Is tragically struck in love
Bridge
Wait a minute...
This chick's got me addicted
I hate her so even though I wish she was my girl
Chorus:
I hate every bone in your body but mine
I can't wait till I can hate you tonight
Never thought I'd understand
But she's too good just for one man, yeah
Round and round and round she goes;
Who she's with don't wanna know
Bridge, chorus 2x's, solo
In one ear and out the other
Told myself this girl is trouble
Round and round and round she goes
And who she's with don't wanna know
Yeah, yeah, yeah
Bridge, chorus 2x's
