Sounds Of Loneliness

Patty Loveless

Hear the sounds of loneliness
Hear the sounds all around
Since you've gone and left me alone
I just hear these sounds from now on
Hear the sound of my mind
Thoughts of you all the time
Since you've gone, left me alone
I'll just hear these sounds, from now on
Hear the sound of my heartbeat
It beats so loud, oh I can't stand it
Oh that sound, that lonely sound
That lonely sound, that lonely sound
Hear the sounds of my tears
Fallen down, fallen down
Like the rain comin' down
Oh that sound, that lonely sound
And it grows louder
And louder and louder and louder
Hear the sounds of loneliness
Hear the sounds all around
Since you've gone and left me alone
I'll just hear these sounds from now on
