

# Sounds Of Loneliness

## Patty Loveless

Hear the sounds of loneliness  
Hear the sounds all around  
Since you've gone and left me alone  
I just hear these sounds from now on  
Hear the sound of my mind  
Thoughts of you all the time  
Since you've gone, left me alone  
I'll just hear these sounds, from now on  
Hear the sound of my heartbeat  
It beats so loud, oh I can't stand it  
Oh that sound, that lonely sound  
That lonely sound, that lonely sound  
Hear the sounds of my tears  
Fallen down, fallen down  
Like the rain comin' down  
Oh that sound, that lonely sound  
And it grows louder  
And louder and louder and louder  
Hear the sounds of loneliness  
Hear the sounds all around  
Since you've gone and left me alone  
I'll just hear these sounds from now on
