

# Could Be Here

## Danielle Howle

Could be here  
I kind of doubt it  
Could be clear  
But look kind of clouded  
Could be here  
I kind of doubt it  
In this world  
Could be fate  
I kind of hope it's what  
Makes me wait  
I kind of know it  
When early's late  
I kind of doubt it  
In this world  
So hold me now  
Could be here  
I kind of doubt it  
Could be clear  
But look kinda of clouded  
Could be here  
I kind of doubt it  
In this world  
I might behave  
I kinda hope so  
but goods crooked  
I kinda know so  
I might be brave  
I've gotta go so  
In this world  
Of all the fools  
The truth will shatter  
Into infinite proof  
The puzzle matters  
Moire that how  
The pieces hook  
They come apart  
To make more good  
I might be strange  
I kinda know so

But good's crooked  
I gotta show so  
I might be brave  
I've got to go so  
In this world  
So hold me now  
It's the same old poise  
That matters  
Hold me now  
I cannot do this  
If I walk alone
