

# Roll Your Window Down

Scotty McCreery

Well, it's a beautiful day, not a cloud in the sky  
What ya say, baby, let's take a ride  
Just me and you and the road and the radio  
We can take a left, we can take a right  
Take you down a road, we ain't never tried  
Flip through the stations 'til we find a song[Chorus]  
That makes you wanna roll your window down  
Stick your hand in the air  
Let the wild wind blow through your hair  
Keep on ridin' 'til we run out of highway  
Pass the dusty fields, through the tailgate towns  
Find us a spot, watch the sun go down  
Steal a little kiss, turn this truck around

Don't it make you wanna roll your window down? You can sit beside me in the middle seat

Baby I'll drive, you can kick up your feet  
Feel that summer breeze and watch the world go by  
No, I don't care if we wind up lost  
Right here with you, I got it all  
Got a full tank of gas, cooler in the back  
Baby, don't that

Make you wanna roll your window down? Stick your hand in the air

Let the wild wind blow through your hair  
Keep on ridin' 'til we run out of highway  
Pass the dusty fields, through the tailgate towns  
Find us a spot, watch the sun go down  
Steal a little kiss, turn this truck around

Don't it make you wanna roll your window down?[Chorus]

That makes you wanna roll your window down  
Stick your hand in the air  
Let the wild wind blow through your hair  
Keep on ridin' 'til we run out of highway  
Pass the dusty fields, through the tailgate towns  
Find us a spot, watch the sun go down  
Steal a little kiss, turn this truck around

Don't it make you wanna roll your window down? Yeah, don't it make you wanna roll your window down?

C'mon baby
