Sapphire

Late Night Alumni

The sky's, the sea, and you.
You're all bule.
It's clearly the loneliest color you do.
Take In some oxygen. I lift up your chin open your ears, and let something in.
Sometimes, when bule lights, hide your eyes you look alive.
Disguised, I realize. You're afraid. You're paralyzed.
Sapphire, you're like twilight, gunfire, is that right?
You're still as polished stone, you're alone, but I bet you'd rather not be on your own. For real you're genuine, and I see where you've been, open your head and let someone in.
Sometimes, when bule lights, hide your eyes, you look alive
Disguised, I realize. You're afraid. You're paralyzed.
Sapphire, you're like twilight, gunfire, is that right? Sapphire (Ã—4)
