

# Swan Song

## Down

My time, all my life  
Some way, I saved  
The memory, the pending  
The family, surround me A God given time  
A God given gift of life  
A time to take away, to kill the pain  
To give me to the ground The pills, the windowsill  
Razor blade, great escape  
So lonely, the feeling  
The slipping, the bleeding Good Lord where are you found?  
Carry judgment way underground  
Did you laugh at me, now alone?  
Shoulda changed my way by now Hero  
Hero  
Hero  
Hero A God given time  
A God given gift of life  
A time to take away, to kill the pain  
To give me to the ground Thanks  
Well thank you
