

Bruise Violet

Babes in Toyland

You got this thing that really makes me hot
You got alot and more when you get caught
You got this thing that follows me around
You fucking bitch well, I hope your insides rotLiar
Liar
LiarYou see the stars through eyes lit up with lies
You got your stories all twisted up in mine
You got this thing that follows me around
You were born with glue instead of spineLiar
Liar
LiarOf thee I sing
Tied to a string
You got this thing that follows me around
You got this thing that really makes me hot
You got alot and more when you get caughtBruise violet
Bruise violet
Bruise violetYou got this thing that follows me around
You got this thing that really makes me hot
You got alot and more when you get caughtLiar
Liar
Liar
