Love Has a Name

Kathy Troccoli

Your say, "I love you", and make a promise
So many words are spoken
You ride on feeling, a short devotion
And leave a heart so brokenLove has a name, love has a face
And when you know love
You know you're not the same
Love never dies, love never leaves
And when hope is gone love will believe
Love every day gives love away
Love has a nameYou wanna fly now, high on emotion
It's like walking on the ceiling
Love isn't blind now
It sees and knows how to go beyond a feelingLove has a name, love has a face
And when you know love
You know you're not the same
Love never dies, love never leaves
And when hope is gone love will believe
Love every day gives love away
Love has a nameLove came from Heaven and died for us all
Now we are forgiven by the savior of the world
The savior of the worldLove has a name, love has a face
And when you know love
You know you're not the same
Love never dies, love never leaves
And when hope is gone love will believeLove has a name, love has a face
And when you know love
You know you're not the same
Love never dies, love never leaves
And when hope is gone love will believeLove every day gives love away
Love has a name, Jesus
Love has a name, Jesus
Jesus
Jesus
Jesus
