

Built For Speed

American Hi-Fi

She's on fire like a rocket spinning out of control
Try to stop her but you just don't know
How to keep it inside
Can you keep on turning out
I'll wait for my turn
Same old story coz you never learn
Gotta make it in time She don't know what she does to me
The girl got soul and rhythm in between
I crash and burn like every other time
She's my little rock n roll queen
I got a girl like that
My baby's built for speed Shoot to kill built to spill
Got a mind take your pills
But your never gonna get to what thrills
All of us inside
Can you put the pedal to the metal this time
You gotta want it like I want it alright
We gotta start tonight She don't know what she does to me
The girl got soul and rhythm in between
I crash and burn like every other time
She's my little rock n roll queen
I got a girl like that
My baby's built for speed She's on fire like a rocket spinning out of control
Try to stop her but you just don't know
How to keep it inside She don't know what she does to me
The girl got soul and rhythm in between
I crash and burn like every other time
She's my little rock n roll queen
I got a girl like that
My baby's built for speed I got a girl like that
My baby's built for speed Yeah my baby's built for speed
Yeah my baby's built for speed
