

symphony of life

AYS

Stars are shinning in your eyes
And I begin to realise
That our path through times unbroken
Do you know what it's like
When a mirror never lies
And the truth remains unspoken
And we dance into the fire
'Cause our spirits take us higher
Do you feel me now
Burning like a flame
The gravity of love
In the symphony of life
There's a place I've never been
Where there's angels gathering
And they talk about the future

And we dance into the fire
'Cause our spirits take us higher
Do you feel me now
Burning like a flame
The gravity of love
In the symphony of life
Fiiire!!!

Do you feel me now
Burning like a flame
If you touch me
Then I may disappear
Floating though your eyes
How do we resist
The gravity of love
In the symphony of life
In the symphony of life
