Never Comes The Day

Moody Blues

Work away today, work away tomorrow
Never comes the day for my love and me
I feel her gently sighing as the evening slips away
If only you knew what's inside of me now
You wouldn't want to know me somehow
But you will love me tonight
We alone will be alright in the end
Give just a little bit more, take a little bit less
From each other tonight
Admit what you're feeling and see what's in front of you
It's never out of your sight
You know it's true, we all know that it's true
Work away today, think about tomorrow
Never comes the day for my love and me
I feel her gently sighing as the evening slips away
If only you knew what's inside of me now

You wouldn't want to know me somehow
But you will love me tonight
We alone will be alright in the end
Give just a little bit more, take a little bit less
From each other tonight
Admit what you're feeling and see what's in front of you
It's never out of your sight
You know it's true, we all know that it's true
You know it's true, we all know that it's true
You know it's true, we all know that it's true
Give just a little bit more, take a little bit less
From each other tonight
Admit what you're feeling and see what's in front of you
It's never out of your sight
