

# Never Comes The Day

## Moody Blues

Work away today, work away tomorrow  
Never comes the day for my love and me  
I feel her gently sighing as the evening slips away  
If only you knew what's inside of me now  
You wouldn't want to know me somehow  
But you will love me tonight  
We alone will be alright in the end  
Give just a little bit more, take a little bit less  
From each other tonight  
Admit what you're feeling and see what's in front of you  
It's never out of your sight  
You know it's true, we all know that it's true  
Work away today, think about tomorrow  
Never comes the day for my love and me  
I feel her gently sighing as the evening slips away  
If only you knew what's inside of me now  
  
You wouldn't want to know me somehow  
But you will love me tonight  
We alone will be alright in the end  
Give just a little bit more, take a little bit less  
From each other tonight  
Admit what you're feeling and see what's in front of you  
It's never out of your sight  
You know it's true, we all know that it's true  
You know it's true, we all know that it's true  
You know it's true, we all know that it's true  
Give just a little bit more, take a little bit less  
From each other tonight  
Admit what you're feeling and see what's in front of you  
It's never out of your sight
