

# No Wonder

## I Am Arrows

I woke up today, just for a little bit  
Tried to fix a part of me, it just made me sick  
    Like it always did  
    It's no wonder  
I remember days, you would call me up  
I remember ways, I could make you stop  
    All the time just for me  
    Now, you fight, with no wonder  
    And now, you fight, for no one, no  
    Are you sure, you sure, you're over?  
I've got no games to play, I can promise you that  
I just want right out, but I'm guessing you know that  
    'Cos you always know  
    Now, you fight, with no wonder  
    And now, you fight, for no one, no  
    Are you sure, your spark, has died forever  
    Are you sure, you sure, you're over?
