

Spanish Eyes

Peabo Bryson

Once in a lifetime everyone falls
You follow your heart and learn to believe
And if you get spiked then you have it all
All you can ask and all you can give
You're enchanted by your spell
Suddenly you're in love
But it's hard for me tell
What really lies behind the smile
I know so well
and those spanish eyes
You were my first
You'll be my last
You are my Ä°nspiration
My heaven on earth has come to pass
Beyond all expectation
I no longer thirst, Ä± no longer ask
It's hard for me to hide
Than a soul is lost inside
I'm captured by your smile
And those spanish eyes When I look in your eyes
my curious heart has crossed the line
Love and romance overflows
All serious thoughts fade from my mind
I've taken my chance I can let go
I'm enchanted by your spell,
Suddenly in love, but it's hard for me to tell
What really lies behind the smile
I know so well
and those spanish eyes.
You were my first
You'll be my last
You are my Ä°nspiration
My heaven on earth has come to pass
Beyond all expectation I no longer thirst,
I no longer ask
It's hard for me to hide
Than a soul is lost inside
I'm captured by your smile
And those spanish eyes When I look

When I look in your eyes
Ohhh... Those spanish eyes...
