

Passive Aggressive (Hisham's Broken Mix)

Placebo

It's in your reach
Concentrate
It's in your reach
ConcentrateIf you deny this
Then it's your fault
That god's in crisis
He's overIt's in your reach
Concentrate
It's in your reach
ConcentrateIf you deny this
Then it's your fault
That god's in crisis
He's overEvery time I rise I see you falling
Can you find me space inside your bleeding heart
Every time I rise I see you falling
Can you find me space
Find me spaceIt's in your reach
Concentrate
It's in your reach
ConcentrateIf you deny this
Then it's your fault
That god's in crisis
He's overEvery time I rise I see you falling
Can you find me space inside your bleeding heart
Every time I rise I see you falling
Can you find me space inside your bleeding heart
It falls apart
It falls apart
It falls apartEvery time I rise I see you falling
Can you find me space inside your bleeding heart?
Every time I rise I see you falling
Can you find me space inside your bleeding heart?
It falls apart
It falls apart
It falls apart
