Robin Hood

The Rifles

One, just one and then I'll go
Though it's on the cards
That an argument is imminent I know
But it's not like I'll get carried home
It's just that I believe that she don't think
I think of her when I'm on my ownDon't think that I don't need
Our nights with the TV
They're so dear to me
But sometimes I like to lose controlJust one more, I promise then I'll go
Now I don't want a scene
Or to have you screaming down the phone
You should know, the only one I know
That will make me laugh
With the little things they do
Is you and only you aloneDon't think that I might be
Thinking that I might leave
You're so dear to me
But sometimes I like to lose controlMaybe Saturday we'll go out
And do something you like
Til that day arrives
You should know you're mineDon't think that I don't need
Our nights with the TV
They're so dear to me
But sometimes I like it on my ownOne thing I know
When I go, my heart stays at home
