This Is Not Goodbye

Sidewalk Prophets

I can see it in your eyes that you are restless
The time has come for you to leave
It's so hard to let you go
But in this life I know you have to be who you were made to be
As you step out on the road I'll say a prayer
So that in my heart you'll always will be there
[chorus]
This is not goodbye
I know we'll meet again
So let your life begin 'cause
This is not goodbye
It's just 'I love you' to take with you
Until you're home again
The stirring in your soul has left you wondering
Should you stay or turn around
Well just remember that your dreams they are a promise
That you were made to change the world
So don't let fear stop you now 'cause[chorus]
Oh, oh, oh
I know the brightest star above
Was created by the ones who loved
More than we'll ever know
To guide you when your lost
What started as a still small voice
Is raging now and your only choice is to
Follow who you are
So follow who you are 'cause
[chorus]
Ohhh
This is not goodbye
I know we'll meet again
So let your life begin 'cause
This is not goodbye
It's just 'I love you' to take with you
Until you're home
It is 'I love you' to take with you
Until you're home
It is 'I love you' to take with you
Until you're home again
