

Break You Off

Mista Roe

I can tell by your breathing that you've been needing
Someone to give you a sense of reason
One who will fill up what's been depleted
I just break you off (Off, Off)
This is the sound of love (breath in)
This is the sound of love (breathe, breathe)
This is the sound of love
I just wanna break you off (Off, Off)
I can hear you breathing
You're welcome to just lay there, you ain't gotta do a thang
And when I bid you farewell,
I know you won't be anything like you came
I wanna take them clothes off,
and when I do it ain't no calling me off
Don't let it go soft, girl keep it up, pick to up
And put it back down on me
Hope you ready, set, go
If you wanna stay all night, then I won't make you leave
Your body is so perfect, well at least it is to me (yea)
We gone do it to the music,
If you wanna go half on a baby we can do it
I promise this is love music
Hope you can keep up when I pick you up
Baby just grind on me
Hope you ready, set, go
I can tell that someone is me...
Give you what you've been missing when I break you off
Said I'ma break you off girl
Sound of love... This is the sound of love
Sound of love... I just wanna break you off girl
