Listen to the horror of Satan sea
Listen to the guns of Superman
Well, I say return to a platinum stranger
Hooked on the enemy under your skin
Panic, despite the heart of stone
Doomsday, for all the beautiful people
Hey, I know what I want now
And it's right in front of me
And I know how to get it
The good things in life are always free
Landscape of greed and hate
It keeps me going
Victim of what's inside you
Outside of truth
Only hurts now when I laugh
Live by fire
Forever is a long, long time
War is hell
Hanging man twitches in agony
Death rattle shakes itself free
Raise your hand to the mountain
Drown in your own bloody fountain
Shadows become longer, the sun burns down
Don't need to look I am found
Lucky, if you still remember your name
Freedom, visions of a showdown
Blood is boiling in the midnight sun
Sizzling, like the enemy under your skin
