

You (feat. Kehlani)

Belly

[Intro]

You, you

You[Chorus: Kehlani]

I'll be up so late just gettin' faded over you

I know you've been patient, I'ma save it just for you

I'll be contemplatin' what I wanna say to you

You, you[Verse 1: Belly]

I said show me somethin' cause these hoes be frontin'

But they got nothin' on you

Pussy so good, make me turn around

Yeah you know that I bust it up, you

She go to college way down in Miami

And she always reppin' that U

And I fuck with less than a few

I really can't settle for less than a few

What you wanna do?

Shit I'll prolly come to you, wanna come to you

I learned this game to a tee all because of you

Now I'm buyin' V, celebratin' all these Ws

Been in the zone for the cameras

First time I met her, she was gone in Atlanta

Almost died but it made us feel alive with each other

So we by the lights cause we be high on each other[Refrain: Belly]

And it's all about you

All about you

All about, all about you

All about you

All about you

All about, all about you

All about you

You[Chorus: Kehlani]

I'll be up so late just gettin' faded over you

I know you've been patient, I'ma save it just for you

I'll be contemplatin' what I wanna say to you

You, you[Refrain: Belly]

All about you

All about, all about you

All about you

All about you[Verse 2: Kehlani]

I've been rollin', I've been really sippin' cause of you
I've been trippin', I've been hittin'
Missin' cause of you
And I don't know why I'm so goddamn persistent
Over you
I done fucked around and caught feelings
Now I'm tryna come up with reasons
For why I'm feining for you
It might not mean nothin' to you
Havin' it to fuckin' on you
Gotta give it up to you
I might keep it a hundred with you
Cause I[Chorus: Kehlani]
I'll be up so late just gettin' faded over you
I know you've been patient, I'ma save it just for you
I'll be contemplatin' what I wanna say to you
You, you[Refrain: Belly]
All about you
All about, all about you
All about you
All about you
All about, all about you
All about you
All about you
All about, all about you
All about you
All about you
All about, all about you
All about you
All about you
All about, all about you
All about you[Bridge: Kehlani]
