

# Slow Day

## Die Happy

There's a traffic jam outside my window  
There's a red light on that just won't change  
The pavement's full of cracks from all the sunshine  
But now they're filling up 'cause the rain is falling downI'm running round in circles  
    Trying to find my wayIt's a slow day without you  
    It's a slow day when you're not around  
    It's a slow day with no escape  
It's a slow day without youThere's a jet-plane up there hanging in the sky  
    Just kind of resting his wings on that big white cloud  
    Minutes taking on but stretching out forever  
Just like the rooftops out there - they all melt togetherI'm running 'round in circles  
    Trying to find my way24 long hours with nothing to do  
    24 long hours just hanging on, waiting for you  
    It's gonna be a slow day
