

# Wildfire

[Timoteij](#)

I'm by your side when the darkness falls  
Shield upon your skin, armor on your shoulders  
For what it's worth I am holding on  
Stronger than before, leaving all my fear behind I cross my heart and hope to die  
This feeling burns inside Runs like wildfire (they can never keep us a, they can never keep us a)  
Wildfire (they can never keep us a, they can never keep us apart)  
Oh oh oh oh (they can never keep us a, they can never keep us apart) x2 You pull me in like a thunder storm  
Wash away my doubts, leaving all my fear to drown I cross my heart and hope to die  
This feeling burns inside Runs like wildfire (they can never keep us a, they can never keep us a)  
Wildfire (they can never keep us a, they can never keep us apart)  
Oh oh oh oh (they can never keep us a, they can never keep us apart) x2 I cross my heart and hope to die, die, die  
This feeling burns inside (they can never keep us apart)  
I cross my heart and hope to die, die, die  
This feeling burns inside Runs like wildfire...  
They can never keep us a, they can never keep us apart  
Wildfire (they can never keep us a, they can never keep us a)  
Wildfire (they can never keep us a, they can never keep us apart)  
Oh oh oh oh (they can never keep us a, they can never keep us apart) x2
