Mind Trip

Nonpoint

You're about to take a mindtrip
So get your ticket stamped
Pack your thoughts on up
And set yourself
To rant and rave
I'll pave the way
And clear a path
For all the aftermath
That's gonna happen
When these verses hit
Your bony ass
Bon Voyage
I'll check you later
Now check your reason
Was it all for pleasing
Or was it all misleading
Or do you need a guide
Brother check your side
I'm gonna take you on a joyride

Trip inside your mind (4x)
Feels good and separate yourself

It feels real good
I think I kicked in another 12 hours
I'll be back again the vitamin C
Is making me C
The visual dreams
All the colors and the schemes
The visual dreams
The light from the moon
Screams shuttering
Laughing to breathe

Separate yourself
I'm gonna take you on a mindtrip
I'm gonna take you on a mindtrip
I'm gonna take you on a
I'm gonna take you on a

I'm gonna take you on a
Separate yourself
Separate yourself

This neverending story is ending finally
The scheme of things
The ways of life
You step into the pit
Of the heart, the mind, body, and soul
These griffin roles
You'll soon be playing them alone
Jester jokes told again
And then you say we're friends
Well I'm laughing and coughing
Set me off and check the character of this cartoon
Delusions you are seeing
Are coming real real real soon
Trip again
You're my only friend
I wanna trip I wanna trip again
Trip again
You're my only friend
I wanna trip I wanna trip again

I wanna trip again
I wanna trip again
I'm gonna trip again
Trip again trip again trip again
I wanna trip again
Trip again trip again trip again trip again
Trip again trip again trip again trip again
Separate yourself
Separate yourself

I'm gonna take you on a mindtrip (2x)
Separate yourself (8x)

Look inside
You're gonna find me there
Looking for your simple pleasure
