

# United Front (Noises In My Attic Remix)

## Arrested Development

The great depression everyone is in depression  
No one knows exactly what's their role  
Totally confused, depressed 'cause of the news  
Watch TV, more bad is what you see Everyone's lost and were looking for a savior  
Everyone's blind and were looking for a leader  
We've lost our faith so we need someone to guide us  
Right now, it's so easy to be deceived I'm climbing my soul to reach to newer levels  
Reach the mountain top so I can better see  
Step back and see the whole mighty picture  
Gain control of my destiny I'm climbing my soul so I can picture a solution  
'Cause once I picture this it can be  
I cannot leave my life within this uncertainty  
I call on the red, and the black and green  
And the black and the green United we stand, united we fall  
United we plan as a united front  
United we stand, united we fall  
United we plan as a united front I walk the streets and try to pass energy  
Put the gun down, black man give me a pound  
Save those rounds for a real confrontation  
Understand who you are as a man Everyone's lost and were looking for a savior  
Everyone's blind and were looking for a leader  
We've lost our faith and we need someone to guide us  
Right now, it's so easy to be deceived I'm climbing my soul to reach to newer levels  
Reach the mountain top so I can better see  
Step back and see the whole mighty picture  
Gain control of my destiny I'm climbing my soul so I can picture a solution  
'Cause once I picture this it can be  
I cannot leave my life within this uncertainty  
I call on the red and the black and green  
And the black and the green United we stand, united we fall  
United we plan as a united front  
United we stand, united we fall  
United we plan as a united front United we stand, united we fall  
United we plan as a united front  
United we stand, united we fall  
United we plan as a united front
