I Remember

Kelly Rowland

Remember when I was your baby
I was always sneaking in your mind
Remember when we loved like crazy
Both without anything to hideI was your lover, I was your friend
And you never had to question it
Don't know who to blame no matter who's fault
Somehow we lost it allAnd I remember
When you loved me
I remember
When you loved meThey say you know, yeah you know when it's over
It hurts when it's over
Remember when you used to lay your head on my shoulder
It made us feel closerI remember
When you loved me
I remember
When you loved me
When you loved me
When you loved meLove (love)
You didn't know (You didn't know)
You didn't know
You messed up my head (my hands up)
Never, never, no no never, no no never
AndI remember
(Whenever I) When you told me you loved me ?
Now you too good for that
I remember
(You you used to) You would always check up on your babyI remember
When you loved me, I, remember
When you loved meWhen you loved me
When you loved me
When you loved me
When you loved, loved, loved
Loved me
