

future kid

[blakvise](#)

Gettin' closer to the swine
Contemplatin' over wine
Are you sure we have the time, time
Hope that we will make new kindsThe nation's grabbed you
(Persuade you to stay)
But when they stabbed you
(Started to play)Green is stunningly in store
Teddy Ruxpin is a whore
Class is this new product here, here
Purchase yours, they'll disappearThe nation's grabbed you
(Persuade you to stay)
But when they stabbed you
(Started to play)The nation's grabbed you
(Persuade you to stay)
And what have you
(Started to play)The nation's grabbed you
(Persuade you to stay)
But when they stabbed you
(They started to play)The nation has you
(We'll stay away)
But when they stabbed you
(Started to play)
