Almost Like Love

Yes

Who was it organizing the right
To follow my leader?
Seems we look and stand around waiting
For a sign from God
Speaking for myself
The Christian need, the Muslim need
The Buddhist need
To testify the need for brotherly love
I know there's so many hundred things
To talk about, making us laugh
Just like a Shakespeare revolution
Please organize our spiritual evolution
So that you'll feel it and we'll feel it
Appreciate it
It's almost like love
It's almost like love
It's almost like love
It's almost like love
Saint or sinner
Makes no difference in who you believe
In a world of superstition
Caught in a total nuclear greed
Pioneers of the twenty first century
Looking on and looking fast
To try and fix and try and help
This very need
I know there's so many ways
That we can work it out

Making us laugh and cry
Whether we live or die
Please organize the simple evolution
So there's got to be, so we can see
To be free
It's almost like love
It's almost like love
It's almost like love
It's almost like love
So promised in a hundred letters

Should be getting to you any time now
So promised a surprise for you
For getting so far from now
It's love
It's almost like love
The way the first one out discovers
It's almost like
How many times can you recover?
It's almost
It's almost, it's almost
It's almost, it's almost
It's almost, it's almost
It's almost, it's almost
It's almost, it's almost
It's almost, it's almost
It's almost, it's almost
It's almost, almost, almost like love
