Soul Hacker

Fear Factory

You'll never take my soul
You'll never take my soulThe next generation in synchronization, devoid and astray
Burned and defenseless against the relentless hacking machineWe're disconnected as one, soulless nation
We're disconnected as one, devastationNo soul
I gotta have all control, before I break
No soul
You'll never take my control, I dominateContamination, severe violation of all that I see
Breaking down defenses, devouring access, decoding their dreamsWe're disconnected as one, soulless nation
We're disconnected as one, devastationNo soul
I gotta have all control, before I break
No soul
You'll never take my control, I dominateSeek out and destroy the source of inhumanity
Seek out and destroy the source of inhumanityWe're disconnected as one, soulless nation
We're disconnected as one, devastationNo soul
I gotta have all control, before I break
No soul
You'll never take my control, I dominateNo soul
I gotta have all control
You'll never take my soul
I gotta have all control, I dominate
