Somebodies

Greta Stanley

You drive me crazy
Call me baby
Tell everyone that I'm your favorite lady

Giving me kisses
Hits or misses
If you had a geni I'd be one of you're three wishes
Tell me you love me don't you take it back
Say you're sorry that you didn't mean that
Tell me the truth don't you tell me a lie
What's it gonna take?
To change your mind
Your mind
So lets swap names
Lets swap bodies
Lets stop searching for other somebodies
You and me
You know what I'm all for
If i were you
I'd know what you're about to do
About to do
Why don't you want me?
Like i want you
Why don't you like me?
Like i do to you
Why don't you Look at me?
Like i look at you
Why don't you think of me?
The ways I think of you
You're driving me crazy
Call me baby
Tell everyone that I'm your favorite lady
Given me kisses
Hits and misses
If you had a geni I'd be one of your three wishes
Tell me you love me don't you take that back
Say you're sorry that you didn't mean that
Tell me the truth don't tell me your lies
I'm gonna be the one to change your mind

Your mind
Drive me crazy
Call me baby
Tell everyone that I'm your favorite lady
