

# Lay Our Flowers Down

## Lady Antebellum

Candle wax, like a river on the concrete  
Fears will fly if you let them  
Patterned-leather dress, shoes on a baby's feet  
Is he too young to tell him People come and gather round  
Only love can lift us now  
We find our common thread  
Over tear-stained ground  
Raise our voices up, lay our flowers down White knuckles, cotton beads on a rosary  
Hoping one has an answer  
You hung it on the mirror only as a novelty  
But now you squeeze it 'til your hands hurt People come and gather round  
Only love can lift us now  
We find our common thread  
Over tear-stained ground  
Raise our voices up, lay our flowers down Oh, lay 'em down Another bad sign, another hard time  
[?] you can't ignore  
This ain't the first time  
This ain't the last time  
Trouble's flying at your door People come, people come  
Oh, people come and gather round  
Only love can lift us now  
Only love can lift us now  
We find our common thread  
Over tear-stained ground  
Raise our voices up, lay our flowers down  
Raise our voices up, lay our flowers down  
(Raise our voices up)  
Raise our voices up, lay our flowers down Oh, lay 'em down
