One Light

Eric Bazilian

Lightning strikes
A plane falls from the sky
Senseless human suffering...why?

Lightning strikes
We cry our tears of rage
then we find the strength to turn the page

But if one man can show such hate
Just think of all the love that you and I could make

One Light shines on
a million voices one song
even in our darkest time
One light shines

Soldiers march
They dream their dreams of home
But when a soldier cries he cries alone

And if this world can show such hate
Just think of all the love that you and I could make

One Light shines on
a million voices one song
even in our darkest time
One light shines

It takes more than just some bullets
To free us so many of us
Loving, and loving, and loving,

One Light shines on
a million voices one song
even in our darkest time
One light shines

And night gets longer
But you and I keep getting stronger

In our hearts and in our mind
One light shines

In our hearts and in our mind
One light shines

One light shines

One light shines
