You sure give them other guys, time of day

You got a kind of body that fade time away
This coming from a guy that throws dimes away,i bet you do
But this ain't different
With shawty playing games on the extra men
We be hopping on a plane for business out of town
*** getting it popping in a business suit and
Got a couple hundred grand while i am *****
Lagos and Ivory Coast, on the way to Japan
Kicks back to back, on new shoes
And you rhyming with some guys with some loose screws
Kind of guys your girl should be introduced to
