Same Flesh

Amorphis

That's what my sister says
And during that day
Came spring and summer
Oh, when did you fly here?
It was you I found
The same flesh and blood(My flesh) It was you that I found
(My blood) It was you that I met
One just like me, same flesh and blood
(My flesh) It was you that I found
(My blood) It was you that I met
One just like me, my flesh and bloodA hard place, this world
And nowhere else
Does one make so many mistakes
What's done is done
Done and gone
The same flesh and blood
