

# Somewhat Off The Way

## Dogs Die in Hot Cars

Were the teachers any good at it?  
Were they good at their jobs?  
It must be hard, can they handle it  
When we become what they said we'd not? Now we work and we pay for it doing any old chore  
It makes money so we stick it through  
And day to day the days go by  
And by and by and by and well I just don't want to die like a fool  
I'm not lost, I'm somewhat off the way  
I'm gonna do what I said I'd do at school  
And be the one that says "Hey, this ain't so hard and it's kind of cool" When we look at the clock we know  
How much longer we have  
It's not the hours and the minutes that go  
It's everything that we said and it's gone are you glad Now we're struggling to pay the bills  
With the money we've got  
And the world seems to frown on us  
And we're learning more than we've ever learnt and I like it a lot I just don't want to die like a fool  
I'm not lost, I'm somewhat off the way  
I'm gonna do what I said I'd do at school  
And be the one that says "Hey, this ain't so hard and it's kind of cool"
