

Stay

Steve Grand

Summer wind blows in again
Sometimes we wonder where we lost it
My good intentions were your favorite weapons
Still I've yet to learn my lesson
Woah oh oh
Wooo

Though I don't need much for anything
But a shady tree and a couple pours of whisky
To write my songs of love and life and loss
And just a few about you
So if you'll hear me out Stay with me
We might never have to leave
You're my southern king
We're living for the day dreams
So don't you laugh
You know Jamie had his chance
He's a good good man

But there's some things he just won't understand You know my old man is out of town for a couple days

I think that you should
Stay with me, all summer
Stay with me, under the covers
Stay with me, be my lover
So come on down i will show you how
Us mid-west boys like to party
So grab a beer and get over here
Summer straw and air don't wait another year
Hey, hey,-eyeah Stay with me we might never have to leave
You're my southern king
We're living for the day dreams (yes we do)
So don't get mad

Whats past is in the past
We can make this last if you just give me that chance So when my old man is out of town for a couple days
I think that you should
Stay with me, all summer
Stay with me, under the covers
Stay with me, be my lover You should
Stay with me, all summer
Stay with me, under the covers
Stay with me, be my lover Walking through that old gate

It's quite a sight to see
That handsome face in this desert place
And getting away from me
That's just your position
but right now it's indescion
Do i go back out or chase you down
Will you be the one that got away?
No-oh-ohStay with me we might never have to leave
You're my southern king
We're living for the day dreams (yes we do)
So don't get mad
Whats past is in the past
We can make this last if you just give me that chanceSo when my old man is out of town for a couple days
I think that you should
Stay with me, all summer
Stay with me, under the covers
Stay with me, be my loverYou should
Stay with me, all summer
Stay with me, under the covers
Stay with me, be my loverStay with me, all summer
Stay with me, under the covers
Stay with me, be my loverStay with me, all summer
Stay with me, under the covers
Stay with me, be my lover
