

# Three Blind Mice

Eskit

I went to a party, last Saturday night  
When I reached the party everything was right  
Then Babylon raid, them raid, them raid  
Me gets me 'fraid, me gets me 'fraidIt was like three blind mice  
You could-a see how dem run  
It was like three blind mice  
You could-a see how dem runBaddie sticks start flyin', man start to bawl  
Some jump de fence, some put off defense  
But it gets me 'fraid when Babylon raidThe police checked the deejay  
Tell him to turn off sound  
The crowd never like that  
Them start gathering 'roundLet the music play  
Let it play, let it play  
Let the music playIt was like three blind mice  
You could-a see how dem run  
It was like three blind mice  
No man no want go a jailLet the music play  
Let it play, let it play  
Let the music play  
Let the music play  
Let it play, let it play
