Sealand

Art Brut

On a clear day they will see us from the beaches
But their jurisdiction will never reach us
You and me, we'll be high society
I'll raise the flag, you print the moneyYou and me, a principality
Hand in hand in the sealand
You and me, a principality
Hand in hand on the sealandPeople in love, fly around and get fat
I think I'm okay with that
On our Coat of Arms, oh say, from the sea freedom
Other people, we don't need themSpeed boats and helicopters
Well, let's let them circle usYou and me, a principality
Hand in hand on the sealand
You and me, a principality
Hand in hand on the sealandYou and me, a principality
Hand in hand on the sealand
You and me, we're a principality
Stays hand in hand on the sealand
