

The Gold Rush

American Hi-Fi

She caught the gold rush
I could never get enough
Shes been in magazines
What a little beauty queenShell stick around a while
With such a winning smile, smile
She could be in black and white
Im color blind, Ill make it rightHer head keeps spinning round
Im in over my head
Theres an art to falling down, downHey, hey, I got a message for ya
Youre gonna blow it girl
Stuck in your little world
Fight, fight until we get it right
I got you right where I want youShe caught the gold rush
I must've lost my touch
Shes on the movie screen
Acting like a rocket queen
Do you know what I meanShell go the long mile
With such a winning smile, smile
Break it down forever now
'Cause I dont want her anyhow, noHer head keeps spinning round
Im in over my head
Theres an art to falling down, downHey, hey, I got a message for ya
Youre gonna blow it girl
Stuck in your little world
Fight, fight until we get it right
I got you right where I want youGolden girl
Shes just a golden girl
My little rocket queen
You're on the movie screenHey, hey, I got a message for ya
Youre gonna blow it girl
Stuck in your little world
Fight, fight until we get it right
I got you right where I want youHey, hey, I got a message for ya
Youre gonna blow it girl
Stuck in your little world
Fight, fight until we get it right
I got you right where I want youHey, hey, she caught the gold rush
Fight, fight, she caught the gold rush
Hey hey, she caught the gold rush

Fight, fight, she caught the gold rush
