

Speak Now

Socialburn

Speak now or forever hold your peace
Life's too short so would you walk with me
You're too scared to say what you need from me
When I need you to speak now or forever hold
 Your arms around me, I can see the sun
But it's fading out, it's fading out, it's fading out
 And you swore that you would change
So what happens now is what happens now
 And I swore, I'd rearrange
And make time for us have we lost all trust
 Speak now or forever hold your tongue
When your mouth is dry, my bodies numb
You're too scared to say what you need from me
When I need you to speak now or forever hold
 Your arms around me, I can see the sun
But it's fading out, it's fading out, it's fading out
 When you swore that you would change
So what happens now is what happens now
 And I swore, I'd rearrange
And make time for us have we lost all trust
 (Speak now or forever hold your peace)
 And I swore that I would change
 (Speak now or forever hold your peace)
 And I swore that I would change
 (Speak now or forever hold your peace)
 And I swore that I would change for you
 With arms around me, I can see the sun
But it's fading out, it's fading out, it's fading out
 When you swore that you would change
So what happens now is what happens now
 And I swore, I'd rearrange
And make time for us, have we lost all trust
 (Speak now or forever hold your peace)
 And I swore that I would change
 (Speak now or forever hold your peace)
 And I swore that I would change
 (Speak now or forever hold your peace)
 And I swore that I would change for you
 (Speak now or forever hold your peace)

And I swore that I would change
(Speak now or forever hold your peace)
And I swore that I would change
(Speak now or forever hold your peace)
And I swore that I would change for you
Speak now or forever hold your
