Alone In the Night (You Can Scream)

Mimes On Rollercoasters

At a time in your life, when all things change, and thereâ€™s nothing to hold on to.
You need something special to re-arrange, the depression thatâ€™s holding you.

And the nights seem so empty, when youâ€™re alone.
Only then you can know the way that you feel.
And the truth isnâ€™t always easy to face.
But you must face it before you can sleep.

When youâ€™re alone in the night you can dream.
Alone in the night you can scream.

When youâ€™re lying awake, through the whole night and you feel so all alone.
Deep in your mind your thoughts they run wild and your brain is on overload.

And the nights seem so empty, when youâ€™re alone.
Only then you can know the way that you feel.
And the truth isnâ€™t always easy to face.
But you must face it before you can sleep.

When youâ€™re alone in the night you can dream.
Alone in the night you can scream.

When youâ€™re alone in the night you can dream.
Alone in the night you can scream.

When you look to the past and see all the best but the future has left you behind.
The plans that you made for the life that you lead leaves a taste in your mouth,
like a cheap glass of wine.

And the nights seem so empty, when youâ€™re alone.
Only then you can know the way that you feel.
And the truth isnâ€™t always easy to face.
But you must face it before you can sleep.

When youâ€™re alone in the night you can dream.
Alone in the night you can scream.
