I Still Dream

Boney James

I still dream that we're together, baby
I still dream of a love that last forever

Something bout' the wind blowin' warm tonight
Takes me drifting back in time
So many memories
Playing over and over

I can still feel the fire from our first kiss
Seems like only yesterday
Now there's sadness in the air
For love was never ending

Out of the blue it changed
And my whole world came tumbling down
Wish you were here next to me
So I make believe
I still dream that we're together, baby
I still dream of a love that last forever

Goodbye is always harder when you're left behind
The emptiness won't go away
Now every thing I see
Reminds me of our times together

Out of the blue it changed
And my whole world came tumbling down
Wish you would come back to me
So I make believe
I still dream that we're together, baby
I still dream of a love that last forever

Wish you would come back to me
So I make believe
I still dream

Wish you were here next to me
So I make believe
I still dream
